Ocean Park Hong Kong is a marine mammal park, oceanarium, animal theme park and amusement park, situated in Wong Chuk Hang and Nam Long Shan in the Southern District of Hong Kong. The park has won several awards, including The World's Seventh Most Popular Amusement Park and 33rd Most Visited Tourist Attractions in the World by Forbes.

The Cable Cars are a great way to travel between the WaterFront and Summit. With Ocean Park attractions located on two different sides of a mountain and wide swaths of sea in between, riding the Cable Car provides unprecedented views of the surrounding area, the sea, and the entire park.

Come for a fantastic journey on the Ocean Express, the latest quick, smooth, thrilling and fun way to travel from Ocean Park's Waterfront to the excitement at the Summit. Built to transport up to 5,000 people per hour in each direction, the Ocean Express funicular train can shuttle guests between the Park's two main lands in just 4 minutes.

The participants of this meaningful event are going to Technical Visit both Cable Cars and Ocean Express in Ocean Park for seeing informatics and control technologies related issues.

Remark:

Each participant needs to bring the Hong Kong Identity Card to join this event.
