Symposium on

E-Management –
Challenges and Opportunities

28 May 2010, Friday, (9am – 5pm)

Langham Place Hotel
555 Shanghai Street, Mongkok, Kowloon

Organised by:

**The IET Hong Kong
Management Section**

(<http://www.theiet.org.hk>)

***E-Management –
Challenges and Opportunities***
28 May 2010, Friday

Synopsis

This symposium is aimed at professionals, senior managers, researchers and engineers with special interest in energy management. It will provide participants with a platform to share and exchange ideas on some of the latest development and successful applications of Energy Management. This one-day symposium will address the global trend of Energy Management including energy savings, reduction in carbon emission and alternative energy sources including some of the latest and forthcoming technologies.

Language

The Symposium will be conducted in English unless otherwise specified.

Remarks:

The Organiser reserves the right to change speaker(s) and/or topic(s) without prior notice. A detailed Symposium Programme will be distributed during the Symposium. Please see our website for the latest update.

***E-Management –
Challenges and Opportunities***
28 May 2010, Friday

Programme (9am – 5pm)

- 1. Heat Pump - An Effective Means to Extract Renewable Energy*
Mr. Charles Chan
Hotpool Industries Limited
- 2. Advantage and application of Thin Film Photovoltaic*
Mr. Aman T K Yuen
DuPont Apollo Limited
- 3. Energy Audit and Saving Applications*
Mr. Eddie Wu
CLP Power
- 4. Application of LED lighting to Railway Industry*
Mr. Ronald Cheng
Mass Transit Railway Corporation
- 5. Optimizing Energy Efficiency - Inverter Control Technology*

Daikin
- 6. Smart Home and Intelligent Energy - Efficient Building Control*
Mr. Tobias Schlitzer
ABB
