Huawei Technologies Co. Ltd is a leading telecom solution provider and telecom equipment manufacturer in China. Huawei has established in 1987. It has grown from a small company to a global company with business presence in over 140 countries. The visit will introduce and show the state-of-the-art telecommunication technologies, equipment and solutions, mobile technologies and future trend of digital life. A guided tour to a new showroom, test labs and training centre will be given and prepared by Huawei.

Remark:

- *Transportation at China side will be provided by Huawei*
- *IET members are covered by group personal accident insurance of IET HK*
